Referral Profile Information

Referral service members have the option of adding a photo and short biography (500 words maximum) on their Referral Service Profile. Once you are a Referral Service member, you will be able to update and view your profile, (including your photo, biography, referral address, and checklists) through your Member Profile on the PAA website.

Referral Service Terms of Use

The Psychologists' Association of Alberta Referral Service is a program established, operated and maintained by the Psychologists' Association of Alberta (PAA). The PAA Referral Service is designed to provide the public with access to the names of licensed psychologists who are participating members of the Referral Service.

We do not recommend or endorse any specific professionals, procedures, methodologies, specializations, or other information that may be included on the Referral Service.

1. Participation in the Referral Service is open to all psychologists who are Full or Life members of PAA and are registered and in good standing with the College of Alberta Psychologists.
2. Participants hold sole responsibility for providing accurate information, reviewing their information regularly, and updating their information to reflect any changes. PAA does not hold responsibility for the accuracy of Referral Service participants' information.

3. The participant agrees to abide by the Canadian Code of Ethics for Psychologists (available through the College), and to act in a professionally responsible manner at all times.
4. The participant may voluntarily suspend or terminate listing with the Referral Service at any time.
A participant shall automatically be terminated from the Referral Service in the event of:
 - Loss of licensure
 - Failure to carry the professional liability insurance as required to retain licensure by the College of Alberta Psychologists or to demonstrate, upon request, that such insurance is in effect
 - Disciplinary action taken against the participant by any governmental or professional agency, board or organization which action is or was based upon a finding of a serious breach or violation of the participant's professional and/or ethical standards of conduct.
5. The telephone referral service is conducted through the PAA office during regular business hours. The on-line referral search on the PAA Website is accessible to the public at all times. A search of the PAA Referral Service will provide the participant's name, referral address, and referral phone number.
6. A direct link to the participant's website is available through the on-line referral service for an additional fee.
7. Referrals of potential clients will be distributed by an equitable rotation. The PAA Referral Service does not guarantee that callers or users of the online referral search will contact the participant. Upon request, the PAA office staff can provide participants with information about how many and what types of referrals have been made to them.
8. If, for whatever reason, a referral does not appear appropriate or cannot be accepted the participant should notify the PAA office and/or endeavour to facilitate the referral of the caller to a more suitable resource.
9. Fees for psychological services are to be negotiated directly between the participant and the prospective client. The Referral Service does not set, advertise, or guarantee fees.
10. The participant shall abide by all of the rules and regulations of the Referral Service. The Participant will not, under any circumstances, make any claim or attempt to hold liable PAA or any of its officers, members or employees, for any claimed loss, injury or other damage arising out of or in connection with the operation of the Referral Service or in connection with the use of any information contained in the participant's application.

Referral Service Terms of Use Agreement

- I hereby certify that the information I have provided on this application is true and accurate to the best of my knowledge and belief.
- I agree to indemnify and save harmless the PAA, the Referral Service, and any PAA staff, officers, employees and members against any and all loss, damage or costs (including costs of defending actions against the same and attorney's fees) which they may hereafter incur by reason of any referrals of clients/patients, and/or treatment of clients/patients so referred.
- If limitations are put on my practice, my registration is suspended or cancelled by the College of Alberta Psychologists I agree to notify PAA within five business days.
- If there are any limitations, terms or conditions to my registration to practice psychology, I agree to modify my practice accordingly and apply these limitations to all referrals received through the Referral Service
- I agree to PAA obtaining information regarding my status with the College of Alberta Psychologists from the College.
- I understand that a search on the PAA on-line referral service will provide my name, referral address and referral phone number to users of the referral search.
- I understand that the Referral Service is under the control of PAA. PAA reserves the right to add or remove information at its sole discretion without cause.
- I have read and understood the Terms of Use of the PAA Referral Service and agree to abide by them.
