

# SUMMIT

## Mental Wellness Clinic

Summit Mental Wellness Clinic (formerly Summit Psychology Group) in beautiful Nelson, BC, are expanding our services and seeking two Registered Psychologists to join our team.

We are a collaborative and dynamic private practice, striving to provide our clients with the highest standards of service. Over nearly quarter of a century, Summit has built and maintained our reputation for delivering excellent services in meeting the needs of our clients. We provide a broad range of psychological and mental health services including child and adult psychological and psychoeducational assessments, and treatment for various mental health concerns.

Our multidisciplinary team includes Registered Psychologists, Registered Clinical Counsellors, Psychometrists and Testing Technicians, as well as an Occupational Therapist and a Kinesiologist. We have long-standing relationships with multiple referral sources including Community Living BC, WorkBC, WorkSafeBC, Veterans Affairs Canada, Medavie and various insurance agencies. We also receive referrals from several school districts within our region.

**We are currently hiring for two full-time positions:**

**Child & Youth Psychologist.** We are seeking a Registered Psychologist with relevant experience and a passion for improving the lives of children, youth and their families struggling with various psychological and familial challenges.

Priority will be given to applicants with training in various evidence-based treatment modalities including CBT, trauma-informed therapy, and family systems therapy. Training in assessment of Autism Spectrum Disorders is an advantage.

**Adult Psychologist.** We are looking to recruit a Registered Psychologist with knowledge and experience working with adults.

Training in evidence-based treatment approaches, including Cognitive-Processing Therapy, Cognitive Behavioural Therapy and Eye Movement Desensitization and Reprocessing, would be an asset.

Priority will be given to applicants with expertise in working with trauma disorders and/or work-related injuries (psychological and physical) requiring support to remain at, or return to work. Training in assessment of Autism Spectrum Disorders is an advantage.

### **Requirements of you**

You must be registered or eligible for registration with the College of Psychologists of British Columbia (CPBC) and in good standing with your current regulatory body.

You will also be required to maintain your own, current professional liability insurance.

### **Beautiful, custom built office space**

- ✓ We are situated in a lovely, brick heritage building in downtown Nelson, BC.
- ✓ Our space is newly renovated and was designed to maintain the heritage features of our building, while providing a modern, inviting, accessible, comfortable space for our clients and staff.

### **First class administrative support.**

- ✓ Full administrative and billing support is provided by our delightful, highly trained administrative staff. This allows our clinicians to focus on client work.

### **Nelson, BC.**

## Remuneration

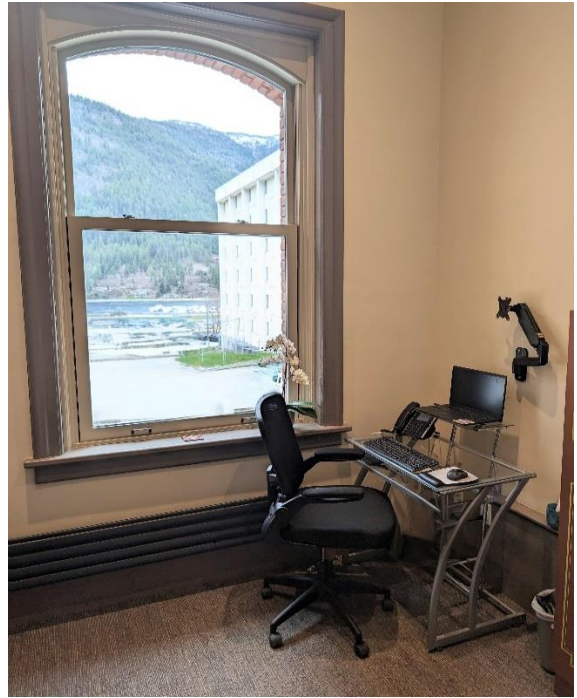

- ✓ Pay is based on percentage of earnings, negotiated dependent on relevant experience.

## Hours

- ✓ We value an excellent work/leisure balance for all our staff. Full time therefore refers to 25 billable hours per week for 45 weeks per year as a contractor.
- ✓ While full-time hours are preferred, part-time work may be possible.

## Other benefits

- ✓ Options are available to buy into our affordable benefits package as part of our group plan.
- ✓ Subsidies for continuing education are negotiable.
- ✓ Opportunities for collaborative work and collegial consultation/ support are available.
- ✓ Supervision of intern and practicum students is available if desired.
- ✓ We welcome applications from newly qualified Psychologists.
